Organized

## Experience

### >Walmart/Receiving Associate:

*August 2015 - Present*

- Unload the truck every day within our deadline to make sure the rest of the day goes as smoothly as possible.
- Work as part of a team to stock shelves while always being an example and encouraging everybody to go quickly because there is always more to do.
- Training associates to do our job, how to have a positive impact on the team, learning departments, teaching them to ask questions.
- Training under a supervisor to learn how to improve my management skills, picking the best associate for specific tasks, getting things done on time, and updating other managers on our progress throughout the day.
- Answer customer questions in a quick and friendly manner while on the floor and push myself to know where more things are in the store so that I'll always know the answers to the customer's questions.
